

# Contract Intelligence Healthy Start Program

---

iManage Contract Intelligence is an exciting and flexible solution, and we want to ensure that your team knows how to best leverage it to get the most value for your organization. Our Healthy Start program over the first weeks of your subscription will set you up for success.

## Healthy Start Timeline

Our six-week Healthy Start program includes:

**Planning** Map your use case and ensure that your organization's overall goals for engaging with the solution are defined

---

**Solution Enablement** Provide your team with understanding on best practices for how to use the solution from both a process and technology standpoint to get the most out of the solution

---

**Strategic Execution** Ensure that you are measuring the value of the solution to your organization

---

**Dedicated Assistance** Access the iManage team who can answer specific questions and ensure objectives remain on track

## The iManage Team

Guiding you through your Healthy Start program will be a team of knowledgeable resources. You will work with your assigned Legal Practice Lead who will leverage their legal background to provide guidance and advise on processes to ensure your overall access with Contract Intelligence. Our Professional Services team will guide you in understanding best practices for leveraging the technology. You will also have access to iManage Support, over 100 support engineers worldwide.

## The Result

As a result of our Healthy Start program, you and your team will understand how to strategically leverage Contract Intelligence.

You will have the technical skills to effectively use Contract Intelligence; an understanding of best practices and strategies for using the solution; additional opportunities to bring value to your organization.
